Good Morning All,

Challenges continue to evolve on OU4, and I need your assistance on several fronts. First and foremost, I have meetings with Carl and Management today at 1:00 PM, to discuss the SSC we have with ODEQ. We have spent more money then what they have committed to and we are looking for solutions. The document titled "Cost Share Concerns", capture the essence of this particular challenge. With that said, Jim, I was informed that the letter to Mr. Eby's attorney Mr. Rush has not been mailed. If that is the case, we should delay its issuance, until a solution with the SSC is reached. If it has been mailed, we will need to talk. Currently, we are not in a position to complete any settlement discussions.

There are two calls as you know that occur each week on Tar Creek. The Access call with the Tribe's Reality Department, BIA, EPA and the Contractor, occurs every Tuesday at 2:00 PM. I am not sure if I will be able to participate in this call, due to the Briefing with the DD either at 1:00 pm or 1:30 pm. Janetta has agreed to stand in my absence. The call in number is (b) (6), and the code is (b) (6). Denis Ewing has the Leader PIN, as do Janetta. Thanks Janetta and Denis.

We also have our weekly RA conference call with the Stakeholders on Wednesday from 9-10:00 am, and Bob has agreed to stand in for me in my absence (Thanks Bob). The call in number for that call is (b) (6), and the code is (b) (6). On that day I will travel to Oklahoma and provide transportation for the DD and RA from the RTOC conference on 4/3, and travel to Miami to conduct a site tour on work that has been completed at OU4, and provide transportation to various meetings the DD and RA have with various Tribes and representatives. Janetta please provide me some sign in sheets for the tour and Dr. Osborne's phone number, Thanks! Denis, if we still have walkie talkies at the site, I would like to use them, in the event that it is raining during the tour, I can talk with parties that may follow us during the tour. Thanks Denis.

The last item I need all of your insight and suggestions on is a response to Mr. (b) (6)'s 3/22/13 attached letter. Given where we are with the State not providing a match, do you have any suggestions on the best way to address Mr. (b) (6)'s letter? I have some ideas, but wanted to know your thoughts. I have also attached EPA's letter to his initial inquiry. Any insight you can provide is greatly appreciated.

Thanks as always to this wonderful and dynamic team for you resourcefulness, insight, and expertise, that you bring to this project. Have a great day.

Ursula Lennox
 Remedial Project Manager
